

Leadership Coaching

Tony Sheard is a certified leadership coach with Ministry Coaching International and has developed a leadership coaching program based upon their core four personal coaching methods.

Living Word offer to ministry pastors, associate pastors and ministry leaders the opportunity to participate in an initial one year personal coaching program. Coaching and mentoring is something that is very familiar today in the business world but is only slowly being implemented in the area of Christian leadership. Those who have participated have found it a powerful tool in taking forward their life and ministry goals as never before.

The course covers the following parts

- 1) A life plan that helps develop personal priorities and provides a focused and intentional work life balance.
- 2) A ministry vision plan that enables leaders to refocus on their passion and calling in ministry
- 3) A ministry plan that assists with strategic implementation of vision and goals.
- 4) Priority Management that keeps the leader on track.

The coaching experience is conducted personally with Tony and includes completing a DISC profile. The results of the profile are then reviewed in a first 2 hour session. This is followed by a further 23 half hour sessions conducted on a 2 week basis. The sessions are usually completed by way of Skype conversations rather than face to face as this has proven to be the most efficient method for leaders to get the most out of the allocated time.

The cost for a one year program is £750.

If any leader is interested in the course Living Word will be more than happy to explain the system further and provide testimonies from leaders who are already part of the program. We also offer an initial complimentary coaching session. This enables a leader considering being a part of the program to assess whether this method of coaching will work for him or her before making a commitment.
